

Compare care options to help keep costs down

Getting care at the place that may best fit your condition or situation may save you up to \$2,500 compared to an emergency room (ER) visit.* If you have a life-threatening condition, call 911 or go to the ER. For everything else, it may be best to contact your primary care provider (PCP) first. If seeing your PCP isn't possible, it's important to know your other care options, especially before heading to the ER.

Care options to consider

24/7 Virtual Visits

See a doctor whenever, wherever

PCP

Care from the doctor who may know you best

Convenience Care Clinic

Basic conditions that aren't generally life-threatening

DispatchHealth®

Urgent medical care at home

Emergency room

Life- and limb-threatening emergencies
