Shop for care like you do everything else.

It's nice to know the price for things like groceries and gas before you get them. With the Surest health plan, now you can see the price for health care before you use it, too. The Surest plan is designed to show you upfront prices and treatment options to help you make decisions about where and how to get care. If you have a life-threatening condition, call 911 or go to the ER. For everything else, check your Surest account to find physician prices, treatment options, and ways to save before you get care.

Go to Benefits.Surest.com or the Surest app and search by condition or symptom to find care that fits your health need and budget.
